HOW TO PLAY

Take the Jokers out of the pack of cards. Split the deck evenly between batter and bowler. (26 cards each)
The bowling player must state who is bowling at the start of each over. The bowler turns their card over - this refers to a horizontal co-ordinate. The batter then turns over their card - this refers to a vertical co-ordinate. The two co-ordinates refer to runs or wickets.

Players agree on how many batters each team can have and how many decks will be bowled. Maximum batters = 6
Maximum decks = 4
If a batsmen lands on a wicket co-ordinate they are out unless the wicket is written in black. If player lands on this then a 3rd Umpire referral must take place.

3RD UMPIRE REFERRAL

A 3rd Umpire Referral is when a wicket has been taken that is written in black. Both players must turn over another card each. If the cards are matching numbers or colours then the batsmen is out. 'Star' batsmen cannot go out on a referral. 'Star' bowlers do not need to refer, they are out. If a wicket between a 'Star' batter and 'Star' bowler occurs, a normal referral must happen.

ONE STAR BATTER AND BOWLER PER TEAM. STARS COME WITH BONUS RUNS AND BOWLING BENEFITS.

STAR players are selected via an 'auction'. A player rolls a dice. This dice roll corresponds to a 'Star' player. Players then take turns to roll the dice (3 times each). The player who rolls the highest 3 roll sum gets that player. The player who loses rolls the dice again and takes the corresponding 'Star'
